

Three Key Areas — Ground Interface Proof | City First, AI Backstage

Derived / Not yet canonicalized · KEY_AREA remains provisional · section proportions are diagrammatic

Verification Campus

Layer high-risk validation away from ordinary city life instead of turning the whole campus into a test field.

GROUND EDGE SEQUENCE

Open research frontage

Governance review frontage

Bounded test inner edge

Service and equipment edge

ORDINARY + ACCESSIBLE ROUTE

Public lobby → shaded commons → ordinary bypass → staffed safety desk; no AI permission required.

DIAGRAMMATIC SECTION RATIO

public walk

shade seating or green mobility or service

buffer

test or building edge

EVERYDAY USERS

• □□□□□□

• □□□□□□

• □□□□□□

REVIEW FLOOR

AI off: walk + access + shade + seating + human help + emergency/service still work.

Learning Neighborhood

First make the university-community seam walkable, sittable and human-helpful; AI then appears as an optional service layer.

GROUND EDGE SEQUENCE

Learning commons frontage

Inclusive service frontage

Slow-mobility threshold

Low-disturbance living edge

ORDINARY + ACCESSIBLE ROUTE

Neighborhood entry → learning commons → inclusive court → walking gate; ordinary signs and staffed help remain.

DIAGRAMMATIC SECTION RATIO

active frontage

public walk

shade seating or thresh green buffer

quiet edge

EVERYDAY USERS

• □□□□□□□□

• □□□□□□□□

• □□□□□□

• □□□□□□□□

REVIEW FLOOR

AI off: walk + access + shade + seating + human help + emergency/service still work.

Market & Service Commons

Place trade, riders, commuting and night life in one manageable urban ground floor instead of letting AI equipment occupy the street.

GROUND EDGE SEQUENCE

Market-service frontage

Rider and loading pocket

Night commons edge

Green mixed-use court

ORDINARY + ACCESSIBLE ROUTE

Station-city direction → market street → night commons → green court; non-AI payment/navigation/help remain.

DIAGRAMMATIC SECTION RATIO

shopfront

clear walk

shade seating cycle or rider

green band

service pocket

• □□□□□□

• □□□□

• □□□□□□

• □□□□□□

REVIEW FLOOR

AI off: walk + access + shade + seating + human help + emergency/service still work.

Evidence status: canonical KEY_AREA / OSM candidate context / reviewer-detail ground interface. No statutory FAR, height, ownership or road-redline claim.

AI ON / AI OFF Spatial Evidence

CONCEPTUAL / DERIVED

The same civic floor remains usable; AI only adds optional capability layers.

Verification Campus

AI OFF

Wayfinding

Human help

Bypass

Verification Campus

AI ON

Consent

Bounded

Learning Neighborhood

AI OFF

Wayfinding

Human help

Bypass

Learning Neighborhood

AI ON

Ambient

Consent

Bounded

Market & Service Commons

AI OFF

Wayfinding

Human help

Bypass

Market & Service Commons

AI ON

Ambient

Consent

Bounded

AI OFF = Permanent baseline · AI ON = Ambient / Consent / Bounded Test; neither implies approved implementation.

Urban Adaptation Rate | Learning Is Not Deployment Counting

UAR = verified improved eligible issues / evaluable qualified issues

Responsible STOP = learning/safety outcome, not automatic adaptation credit

Public Dashboard

UAR	Unknown
Null until real operation	
STOP rate	Unknown
Publish stops, not hide failures	
Override	Unknown
Human takeover must be measurable	
Transfer	Unknown
Revalidate before transfer credit	
Non-AI parity	Unknown
Usable when AI declined/offline	

Public Capability Interface | City First, AI Backstage

Jing-Zhang City Version Release | Accountability, Not a Leaderboard

Mobility × Blue-Green × PCI | Continuity Is Not “Draw a Road”

Spatial principles

- North-south: public-life continuity backbone
- East-west: 5 evidence-gated stitch relations
- Blue-green: shade/thermal/stormwater first
- Nodes call capabilities; ordinary city works first
- Unverified crossings remain relationships, not invented structures

Landmark as Memory | 1909 → 2026 → Future → Retired

What Remains After 20 Years? | Persistent Protocol, Disposable Technology

Designed to be replaced

- Models
- Cloud stacks
- Sensors
- Robots
- Vendors
- Interfaces

Must persist

- Public accountability
- Risk authorization
- Data provenance/evidence
- Non-AI parity
- Capability ID/version/dependencies
- City learning archive
- Migration/exit/retirement protocols
